Burglars Make a Rich Haul at J. J. Bleich's Establishment.

GOODS WORTH \$7,000

They Opened the Big Safe Without the Combination, and Stole All the Valuable Goods

LEFT NO CLUE BEHIND THEM

The burglary record for Kentucky was broken here last night when thieves entered the jewelry establishment of Mr. J. J. Bleich, on Broadway near Fourth street, and almost literally cleaned the house of everything of value. Mr. Bleich estimates his loss at \$6,000, if not more. The store is also occupied by Mr. Ike Friedman, the tailor, and in the upstairs are McFadden's studio and Dr. H. H. Winston's office. The rear door to Mr. Bleich's was covered with a heavy wire screen, which was pulled off by the burglars, who then with a diamond, or glass cutter, deftly cut the glass and made an aperture through which to insert the hand and unlock the door. They were then aided in going into the rear room, a tailor shop, which was separated from the main establishment by a wooden door, hooked from the inside. They pulled out the hook, and seem to have gone to the big burglar proof safe in the rear, first. A curtain on a string was stretched across to shut off a view of the safe from the outside, and the thieves, if there were more than one, proceeded to unlock the safe by working the combination, which they seem to have done with the skill of experts. In the safe on trays were all of Mr. Bleich's watches, rings and diamond goods. These in their case, were taken to the rear room, where the lights were turned on, and the goods carefully gone over. The finest were taken, and the remainder left. The cases in which the watches were kept were pulled up under the counter as the goods were confiscated, and the cheaper goods, arranged on cards which the thieves evidently did not want, were thrown under the counters, or left strewn on the floor.

The drawers in the safe were opened, and about \$100 in cash was taken. A check from Mr. E. W. Hagley was left. Mr. Bleich after carefully going over what stock was left, placed the number of watches stolen at about one hundred and fifty. Fifty one thousand and rings were taken, and all of the diamond goods, including some very fine diamond pendants.

In addition, about thirty watches belonging to customers, which had been left for repairs, were taken. The value of the watches will average \$10 each and of the rings \$2 or \$3 each, although there were some very fine ones in the lot.

The total value of the pendants and other diamond goods stolen will reach \$2,000. After going through the safe, the burglars went through the stock in the show cases, and took the best of that.

When Mr. Bleich opened up this morning he was astounded at the condition in which he found his store. He and his family were there about 10:30 last night after the burglary had been completed, and the safe locked. The time of the burglary is not known.

The police were notified early this morning but there was no clue or which they could work, and owing to the time that had evidently elapsed, it was generally believed that the burglars were far away.

Marshal Collins thinks that the job was the best piece of work of its kind that he ever saw. The burglars were "no slouch professionals." The facility with which they opened the safe, and the knowledge with which they selected the finest goods, show that they are experts in the business, and were on to their job. It is a well known fact to all detectives and chiefs of police departments that there are some men who can open any kind of a safe by working the combination, but this is the first exemplification of the Paducah police ever had of it. It is generally believed that the men who did the work were following Buffalo Bill's show, as there were all kinds of crooks trailing after the aggregation.

Mr. Bleich discovered this morning that the combination of his safe was written in one of his books, and while it is possible that some one, in past months, accidentally saw the combination, and kept it secret until he decided to use it, this theory is not believed by Mr. Bleich nor the police. Yesterday there were two suspicious characters in the store. One was a strange man who had a nickel-plated

HOLDS THE CUP

Columbia is Indeed the Gem of the Ocean-Won Today.

New York, Oct. 4.—The yacht race began this morning, under auspicious circumstances as on yesterday, with a stiff wind of eighteen knots, and perfect weather. The Columbia got off slightly in the lead, and gained as she caught the wind, but after thirty minutes the Shamrock overtook the defender.

The Shamrock turned the first mark in seconds ahead, but the Columbia's skipper did some fine work on the boom, as the yacht was passing the Shamrock at 1:12. It did not take the American boat long to catch a mile lead.

While nearing the finish the Shamrock forged ahead and then both began tacking, the finish growing closer as they neared the line. The wind began blowing down, which delayed the finish. The Shamrock crossed the line slightly ahead but the Columbia wins on the time limit, and holds the American cup. The finish was the closest ever seen.

The Americans are very jubilant, as the Columbia has proven herself superior in every respect to the challenger.

A COMING MUSICAL.

PROF. DODD AND MISS DU VAL, WITH AIDE ASSISTANTS, AT THE FIRST CHRISTIAN CHURCH.

A musical is being arranged for Tuesday evening, October 8, at the First Christian church. Prof. Dodd, the organist of the church, who has recently come here with high qualifications, direct from New York City, will have the affair in charge. Miss Nancy Du Val, the talented violinist from Cincinnati, will assist him. Back of them there will be the best talent of the city, and the affair promises to be one of special note in the musical circles. It will be a delightful occasion, and one which will doubtless attract all true lovers of music, whether the taste is innate or a matter of high cultivation.

The program will be given in Saturday's paper.

London, Oct. 4.—The latest South African casualty list shows that the fighting in the attack on Col. Kekewich's camp at Moolvill, September 28, put 24 British officers out of action. Four were killed outright or died of their wounds and 23 were wounded. Col. Kekewich was wounded severely, but is doing well.

"We learn on very high authority," says the Daily Chronicle this morning, "that a sudden and complete collapse of Boer resistance and the speedy termination of the war in South Africa are anticipated. The attacks on Fort Italia and Moolvill and the other recent engagements are regarded as the last desperate efforts of men who are weary of the struggle and tired of being hunted."

"Therefore, beyond sending drafts to compensate for losses by casualties, there is no intention to dispatch further reinforcements or to employ Indian troops, as rumored, for guarding the lines of communication."

Commenting editorially upon this information the Daily Chronicle, while admitting that there is much to be said for the "sanguine view taken by the war office," reminds the government of previous miscalculations and warns the ministers that it is their duty no longer to trade on chances, but to make success, humbly appealing, certain.

The Bank of England today announced the issue of three million pounds of local loan stock at a minimum price of 98, with interest at 3 per cent, redeemable in 1912. Tenders for the loan close October 9.

WANT THE COURT HOUSE

FULTON TO MAKE AN EFFORT TO GET IT FROM HICKMAN.

Fulton, Oct. 4.—An effort will probably be made to have the court house moved from Hickman to Fulton. Fiscal court has ordered a new court house to cost \$25,000, but it will require a two year's levy to make up the amount. It is proposed that the people of Fulton make up enough money to pay for the building effort to the county and then make an effort to have the court house moved to Fulton which it is believed could be done without much trouble.

The court house at Hickman was built in 1845, and was recently condemned by the grand jury.

He is An Expert Rough Rider, and Well Known in the Profession.

It will be pleasant news to all Kentuckians to learn that Mr. Walter Scott, a Kentuckian, is one of the best bucking broncho and rough riders in the world and the best in the whole Buffalo Bill aggregation.

Mr. Scott was born in Cynthiana, Ky., and at the age of 17 left home for the west to satisfy his desire for rough riding and a longing for the glorious west and its great excitement. He learned to ride horses on his father's farm and was considered the best in that portion of the country when he left home. He made a name for himself in the west and for the past five years has been with the Buffalo Bill show as the best rough and bronco bucking rider of the United States. Col. Cody said that he is the best man for bucking bronco riding he has ever seen and thinks there is no other like him in his band of riders. He has often complimented Mr. Scott and would not part with his services for any consideration.

Mr. Scott travels with the show in the summer and lives in California and Arizona in the winter. He makes a business of breaking promising horses and sometimes makes as much as \$100 a day for breaking animals. He mounts for \$10 per head and finds the business very profitable. He comes from one of the best and wealthiest families in the state and accepted his calling for pure love and nothing else. He is a distant relative of Dr. Wilson, one of the resident surgeons of the local I. C. hospital.

MR. LEE CRUMBAUGH RECEIVES A PROMOTION.

Mr. Lee Crumbaugh, the son of Captain G. C. Crumbaugh, of the Fowler Crumbaugh boat store, who has been the agent for the Southern Express and the Adams Express company, with headquarters at Springfield, Miss., has been promoted to route agent of the company and will hereafter have his headquarters at Birmingham, Ala.

Mr. Crumbaugh is one of the best and most popular employees of the company and his promotion is deserved. He was formerly located here, and has always been an industrious young man, and his promotion shows that his labors have not gone unnoticed. Many friends here will be pleased to hear of his good fortune.

FOOT CRUSHED.

BOY AT INGLESDALE WILL HAVE TO HAVE IT AMPUTATED.

The ten year old step son of Felix Walters, of Inglede, had one foot horribly mangled yesterday afternoon in a horse power thrasher at Greff's blacksmith shop. He was playing about when the shaft caught his foot and crushed it. Dr. Thomas E. Moss was called and thinks that amputation will be necessary.

BICYCLE STOLEN.

MR. G. W. McFADDEN LOSES A FINE CLEVELAND.

Mr. G. W. McFadden, the photographer, reported to the police this morning that his Cleveland bicycle was stolen last night early from the alley leading to his gallery on Broadway near Fourth. He has no clue to the thief's identity.

ADJOURNED MEETING.

ELKS WILL INITIATE SEVERAL CANDIDATES THIS EVENING.

The Elks met last night in regular session, but owing to the show, they adjourned over until tonight, when several candidates will be initiated.

Y. M. C. A.

Last Night the Arithmetic and Grammar Classes Met.

Arrangements Being Made for the Contributors' Banquet Monday Night.

The Y. M. C. A. held its first lesson and the attendance was above the average.

There were present eleven and the lesson was a success. The work in the Y. M. C. A. is progressing well and it is hoped that the work will be pushed as hard as possible and that the feature will add many to the membership of the association.

The invitations for the contributors' banquet to be held at the association Monday night at 8 o'clock will be out today and a large attendance is expected. A complete financial and statistical report is being made out and will be presented to the contributors on that night so that it may be seen what disposition has been made of the money donated to the association and how the affairs stand.

The association has never been on a sounder financial basis than at present. The outlook for a successful winter is every department is very encouraging.

MONSTER GAR.

ONE CAUGHT AT CALEDONIA THAT WEIGHED 134 POUNDS.

Ben McDaniel, a fisherman, of Caledonia, caught an alligator gar yesterday that weighed 134 pounds, and was five or six feet long. Passengers on the Dick Fowler who saw it hanging out in front of his boat say it looked like a small whale.

It isn't the 2:10 horse that travels the furthest in a day.

REPUBLICAN PLATFORM.

The Republicans invite a comparison of platforms. The party has nominated men for office who have pledged themselves to certain things. The Democrats have promised nothing, and in view of their silence there is nothing to judge them by except past records, which could not have been much worse.

The Republican city platform clearly shows that the Republicans favor Economy and conservatism in spending the public money. They are for a better service, judicious retrenchment, and the consequent benefits from a saving of funds to expend for other things. Democratic administration has spent money lavishly year after year, and leave little behind to show for it. Thousands of dollars are wasted on the streets by paying exorbitant prices for inferior gravel which is delivered in deficient loads and paid for at the contract price, and yet the streets are always a source of continual complaint. Paducah's best street, of vitrified brick, is a blotch, and at present involved in litigation. It was such a palpable imposition that the council that authorized it, refused to pay for it.

The Republicans are pledged to an enforcement of the sanitary laws, which have never been enforced as they should be in Paducah, leaving one of the most important features of municipal government, the protection of public health, entirely neglected. We need a cleaner, more healthful city, and the Republicans will secure it.

The opening of streets to the west and southwest especially the latter, is imperative in the development of Paducah, and should have been begun long ago. Little's addition and Worthen's addition are practically isolated and should be opened up in order that that part of the city may spread out.

These are some of the things that the Republicans promise. The Democrats promise nothing. The presumption is that they hope to get in office and squander the public money in the same old way. We have before asked that something of permanent benefit be shown that the Democratic nominee for mayor did during his seven years of incumbency. The sewerage system he opposed and his antipathy seems to have been shared by other Democrats, many of whom have persistently opposed it because it was begun under a Republican administration.

tion. A Democratic council struck the worst blow that ever staggered the city's credit by repudiating city bonds that every man in Paducah who is familiar with the facts knows were justly owed by the city, and on which interest had been paid for years. The litigation that was evolved from this action will be left as a legacy for future administrations. The Republicans ask the Democrats who want city office to announce what they advocate, and what they expect to do for the public good if elected. This is a day and generation of platitudes, when every man desires to know what he is casting his vote for when he goes to the polls. In other cities the Democratic candidates have announced their platforms. Why shouldn't they do it in Paducah?

The county platform offers nothing that cannot be heartily endorsed, and the party is meeting with great encouragement in all the country districts. Public funds have been systematically wasted by the county for years, from paying one Democratic politician \$100 for printing ballots that could have been printed elsewhere for \$15, to squandering thousands of dollars a year for work on the county roads, which sometimes does not last one season. The Republicans favor as many gravel roads as can be built throughout the county, with money now spent in the useless working over of the dirt roads at an outrageous cost, which in past years, although resulting in no permanent benefit has amounted to enough to gravel the roads in nearly every section of the county.

Our county, as well as city, is in the hands of the clique, and the Republicans ask the co-operation of all good people, both in the city and county, in redeeming them.

OUR NATIONAL BANKS.

The healthy growth of commercial institutions in the United States has extended to the national banks, 715 of which have been organized since the amendment to the currency law March 14, 1900. The capital of these banks was \$36,582,000, with a deposit of bonds as security for circulation of \$10,552,750. Included in the number of banks are 450, with capital stock of \$12,147,000, the organization of which was effected under the provisions of the amendment or the act of March 14, with a capital of less than \$50,000. Banks with capital of \$50,000 or over were organized to the number of 229, the capital being \$23,435,000. While a limited number of the banks organized succeeded state or private banks placed in liquidation for the purpose of reorganization, with capital of \$6,143,000 were conversions of state banks. Of the total number of conversions 68 were with capital of less than \$50,000 and 31 with capital of \$50,000 or over.

In number of organizations the middle states lead with 221, and capital of \$12,054,000. The southern states are second in number of organizations, namely, 171, with capital of \$9,408,000. There were organized in the western states 151 banks, with capital of \$4,895,000. In the eastern states 35, with capital of \$7,589,000, were organized. In the Pacific states, including Hawaii, 22, with capital of \$1,635,000, and in the New England states 16 banks with capital of \$1,206,000.

In point of number of organization Texas leads, with 90 banks, followed by Pennsylvania, with 80; Iowa, 58; Ohio, 42; Illinois, 40; Oklahoma, and Indian territories, 37 each; Minnesota, 25; New York, 27; Indiana, 25; Kansas, 21 and Nebraska, 20.

With the exception of Vermont, District of Columbia, Utah, Nevada and Alaska one or more banks have been organized in every state and territory of the union.

Since March 14, 1900, the number of banks in existence has increased from 2617 to 4251; the capital stock from \$614,305,095 to \$661,851,695; bonds deposited from \$244,611,570 to \$330,721,930, and circulations secured by bonds and by lawful money from \$254,402,780 to \$358,850,547, or a net increase of \$104,447,817.

Here is a sample of the kind of argument the Democrats are using to induce Gov. Durbill, of Indiana, to give up Gov. Taylor: "Goebel was elected governor of Kentucky in the fall of 1900, but he was counted out and Taylor filled the office until removed by the legislature, which investigated the election and pronounced Goebel governor."

That is from the Indianapolis Sentinel. If it is mendacity, it is characteristic of the Goebel gang, and it is simple ignorance if it is honorable. Every school boy in Kentucky, and doubtless every intelligent man in the United States who has paid any attention to politics knows better than that. Gov. Durbill is being urged by men of great prominence both in this state and other states, not to honor the regulation, and doubtless will not.

Marquis Ito, "the grand old man" of Japan, and conceded to be the greatest statesman in the kingdom, has arrived to tour the United States to improve his health. He will probably visit London before he returns.

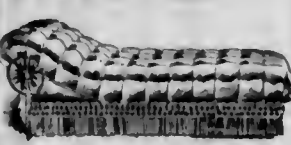

The way Dr. Whitesides called the Morning Windbag down was a caution. The Republicans must register next time. Paste this in your hat. An effort is on foot in Louisville to expose underground wires.

DEMOCRATIC NOMINEES

IN BOWLING GREEN.

Bowling Green, Ky., Oct. 4.—The city Democratic committee has nominated Dr. John H. Mallory for mayor, Judge George R. Gorin for judge of the police court and named the following candidates for councilmen: Charles B. Smith, J. B. Sumpter, George T. Wilson, Dr. E. T. Barr, Hubert Graham, Frank L. Kiser, Jr., Lon Doid, L. A. Jenkins, John Donnelly, R. B. Atkinson, M. B. Nahn and John Dean. A primary was to have been held Saturday to select candidates for these offices, but, having no opposition, the committee simply declared them the nominees. The primary, however, will have to be held to select a candidate for prosecuting attorney of the police court. There are three candidates.

S. A. Ingalls, Crown Point, N. Y., writes: "My wife suffered from kidney trouble for years. She was induced to try Foley's Kidney Cure, and in less than a week after she began using it, she was greatly improved, and three bottles cured her."

EMMA GOLDMAN.

HER EDITORIAL WILL BE BARRIED FROM THE MAINS.

Chicago, Ill., Oct. 4.—Praise of Assassins' Organs and denunciation of President McKinley characterized the article by Emma Goldman in the last issue of the Free Society, the first issue of the organ of the anarchists since the assassination. Her article says in part:

"Never before in the history of governments has the sound of a pistol shot so startled, terrorized and horrified the self-satisfied, indifferent, contented and indolent public as has the one fired by Leon Czolgosza when he struck down William McKinley, president of the money kings and trust magnates of the country."

"Why this howl of a hired press? Why such bloodthirsty and violent utterances from the clergy? Why the mad ravings of the mob, the demand for rigid laws to curtail freedom of speech and the press? Now that the impossible has happened, that even America has given birth to the man who struck down the king of the republic they have lost their heads and are shouting for vengeance upon those who for years have shown that the conditions here were beginning to be alarming and until a halt be called despotism would set its heavy foot on the hitherto relatively free limbs of the people."

"I did not know Czolgosza, but from his attitude and behavior I feel that he was a soul in pain, a soul that could not find a home in this cruel world of ours, a soul impractical, impatient, lacking in emotion, according to the dogma of the wise, but daring just the same, and I can not help but bow in reverent silence before such a soul."

Mayor Harrison has issued a peremptory order to Chief of Police O'Neil instructing him to prevent the delivery of any lecture by Miss Goldman in Chicago at the present time. Her advertisement that she will give publicly the lecture which Czolgosza said that incited him to the commission of his crime is declared by the chief executive to be "little short of the extreme of impudence."

Any justification the police department may need for the prevention may be found, Mayor Harrison says, in the fact that Miss Goldman's public appearance now would be likely to provoke some breach of the peace.

Tonight when Editor Frank made application for admission of his paper, the Free Society, to the mails at second class rate, when he was obliged to do after temporarily suspending publication, he was told that he would have to make formal application in Washington. He was also given an understanding that the Washington authorities would undoubtedly turn his paper from the mails.

J. Odgers of Frostburg, Md., writes: "I had a very bad attack of kidney complaint, and tried Foley's Kidney Cure, which gave me immediate relief, and I was perfectly cured after taking two bottles." Be sure you take Foley's.

BITTEN BY A DOG.

MRS. TOM ORR PAINFULLY INJURED YESTERDAY AFTER NOON.

A vicious dog belonging to Thomas Ross, the father of South Eleventh street, painfully bit Mrs. Tom Orr, wife of the well known police officer, yesterday afternoon. Mrs. Orr had gone over in search for her own dog when the animal attacked her, biting her on a limb, and attempting to reach her throat. She would not doubt have been worse injured had not the animal been beaten off.

There are some of the things that the Republicans promise. The Democrats promise nothing. The presumption is that they hope to get in office and squander the public money in the same old way. We have before asked that something of permanent benefit be shown that the Democratic nominee for mayor did during his seven years of incumbency. The sewerage system he opposed and his antipathy seems to have been shared by other Democrats, many of whom have persistently opposed it because it was begun under a Republican administration.

tion. A Democratic council struck the worst blow that ever staggered the city's credit by repudiating city bonds that every man in Paducah who is familiar with the facts knows were justly owed by the city, and on which interest had been paid for years. The litigation that was evolved from this action will be left as a legacy for future administrations. The Republicans ask the Democrats who want city office to announce what they advocate, and what they expect to do for the public good if elected. This is a day and generation of platforms, when every man desires to know what he is voting for when he goes to the polls. In other cities the Democratic candidates have announced their platforms. Why shouldn't they do it in Paducah?

The county platform offers nothing that cannot be heartily endorsed, and the party is meeting with great encouragement in all the county districts. Public funds have been systematically wasted by the county for years, from paying one Democratic politician \$150 for printing ballots that could have been printed elsewhere for \$75, to squandering thousands of dollars a year for work on the county roads, which sometimes does not last one season. The Republicans favor as many gravel roads as can be built throughout the county, with money now spent in the useless working over of the dirt roads at an outrageous cost, which in past years, although resulting in no permanent benefit has amounted to enough to gravel the roads in nearly every section of the county.

Our county, as well as city, is in the hands of the cliques, and the Republicans ask the cooperation of all good people, both in the city and county, in redeeming them.

OUR NATIONAL BANKS.

The healthy growth of commercial institutions in the United States has extended to the national banks, 715 of which have been organized since the amendment to the currency law March 14, 1900. The capital of these banks was \$36,882,000, with a deposit of bonds as security for circulation of \$10,852,750. Included in the number of banks are 486, with capital stock of \$12,747,000, the organization of which was effected under the provisions of the amendment of the act of March 14, with a capital of less than \$50,000. Banks with capital of \$50,000 or over were organized to the number of 239, the capital being \$23,835,000. While a limited number of the banks organized succeeded state or private banks placed in liquidation for the purpose of reorganization, with capital of \$6,143,000 were conversions of state banks. Of the total number of conversions 68 were with capital of less than \$50,000 and 31 with capital of \$50,000 or over. In number of organizations the middle states lead with 224, and capital of \$12,054,000. The southern states are second in number of organizations, namely, 171, with capital of \$9,408,000. There were organized in the western states 151 banks, with capital of \$1,595,000. In the eastern states 35, with capital of \$7,889,000, were organized. In the Pacific states, including Hawaii, 23, with capital of \$1,625,000, and in the New England states 12 banks with capital of \$1,200,000.

In point of number of organization Texas leads, with 90 banks, followed by Pennsylvania, with 80; Iowa, 53; Ohio, 42; Illinois, 40; Oklahoma, and Indiana territories, 37 each; Minnesota, 25; New York, 27; Indiana, 25; Kansas, 21; Nebraska, 20.

With the exception of Vermont, District of Columbia, Utah, Nevada and Alaska one or more banks have been organized in every state and territory of the union.

Since March 14, 1900, the number of banks in existence has increased from 3617 to 4234; the capital stock from \$616,808,095 to \$661,851,695; bonds deposited from \$244,611,570 to \$330,721,930, and circulations secured by bonds and by lawful money from \$254,402,730 to \$358,830,847, or a net increase of \$104,428,117.

Here is a sample of the kind of argument the Democrats are using to induce Gov. Durbin, of Indiana, to give up Gov. Taylor.

"Goebel was chief governor of Kentucky in the fall of 1899, but he was counted out and Taylor filled the office until removed by the legislature, which investigated the election and pronounced Goebel governor."

That is from the Indianapolis Sentinel. If it is mendacity, it is characteristic of the Goebel gang, and if simple ignorance it is unpardonable. Every school boy in Kentucky, and doubtless every intelligent man in the United States who has paid any attention to politics knows better than that. Gov. Durbin is being urged by men of great prominence both in this state and other states, not to honor the regulation, and doubtless will not.

Marquis Ito, "the grand old man" of Japan, and considered to be the greatest statesman in the kingdom, has arrived to tour the United States to improve his health. He will probably visit London before he returns.

The way Dr. Whitesides called the Morning Windbag down was a caution. The Republicans must register next time. Paste this in your hat.

DEMOCRATIC NOMINEES IN BOWLING GREEN.

Bowling Green, Ky., Oct. 4.—The city Democratic committee has nominated Dr. John H. Mallory for mayor, Judge George R. Gorin for judge of the police court and named the following candidates for councilmen: Charles B. Smith, J. B. Smither, George T. Wilson, Dr. E. T. Barr, Hubert Graham, Frank L. Kiefer, Jr., Lon Dodd, L. A. Jenkins, John Donnelly, R. B. Atkinson, M. B. Nash and John Dean. A primary was to have been held Saturday to select candidates for these offices, but, having no opposition, the committee simply declared them the nominees. The primary, however, will have to be held to select a candidate for prosecuting attorney of the police court. There are three candidates.

S. A. Ingalls, Crown Point, N. Y., writes: "My wife suffered from kidney trouble for years. She was induced to try Foley's Kidney Cure, and in less than a week after she began using it, she was greatly improved, and three bottles cured her."

EMMA GOLDMAN.

HER EDITORIAL WILL BE BARRED FROM THE PAGES.

Chicago, Ill., Oct. 4.—Praise of Assassin Cagales and denunciation of President McKinley characterized the article by Emma Goldman in the last issue of the Free Society, the first issue of the organ of the anarchists since the assassination. Her article says in part:

"Never before in the history of governments has the sound of a pistol shot so startled, terrorized and horrified the self-satisfied, indifferent, contented and ignorant public as has the one fired by Leon Cagales when he struck down William McKinley, president of the money kings and trust magnates of the country."

"Why this howl of a hired press? Why such bloodthirsty and violent utterances from the clergy? Why the railing of the mob, the demand for rigid laws to curtail freedom of speech and the press? Now that the impossible has happened, that even America has given birth to the man who struck down the king of the republic they have lost their heads and are shouting for vengeance upon those who for years have shown that the conditions here were beginning to be alarming and not a halt be called despotism would set its heavy foot on the hitherto relatively free limbs of the people."

"I did not know Cagales, but from his attitude and behavior I feel that he was a soul in pain, a soul that could find no solace in this cruel world of ours, a soul impractical, irresponsible, lacking in caution, according to the dictum of the wise, not daring just the same, and I can not help but bow in reverent silence before such a soul."

Mayor Harrison has issued a peremptory order to Chief of Police O'Neil instructing him to prevent the delivery of any lecture by Miss Goldman in Chicago at the present time. Her advertisement that she will give publicly the lecture which Cagales said first incited him to the commission of his crime is declared by the chief executive to be "little short of the extreme of impudence." Any justification the police department may need for the prevention may be found, Mayor Harrison says, in the fact that Miss Goldman's public appearance now would be likely to provoke some breach of the peace.

Tonight when Editor Isaac made application for admission of his paper, the Free Society, to the mails at second class rate, which he was obliged to do after temporarily suspending publication, he was told that he would have to make formal application in Washington. He was also given to understand that the Washington authorities would undoubtedly bar his paper from the mails.

J. Odgers of Frothing, Md., writes: "I had a very bad attack of kidney complaint, and tried Foley's Kidney Cure, which gave me immediate relief, and I was perfectly cured after taking two bottles." Be sure you take Foley's.

WHAT SHALL WE EAT TO KEEP HEALTHY AND STRONG?

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is recommended.

ly the best, in spite of the claims made by vegetarians and food cranks generally.

As compared with grains and vegetables, meat furnishes the most nutritious, a highly concentrated form, and is digested and assimilated more quickly than vegetables or grains.

Dr. Julius Thompson on this subject says: Nervous persons, people run down in health and of low vitality should eat plenty of meat. If the digestion is too feeble at first it may be easily strengthened by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three or four hours, while the most delicate also contained in Stuart's Tablets make the perfect digestion of starchy foods, like potatoes, bread, etc., and no matter how weak the stomach may be, no trouble will be experienced. If a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the person and disperse so necessary to perfect digestion, and aid foras of indigestion and stomach trouble except cause of the stomach will be overcome by their daily use.

That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and hence its complete digestion by the system. The use of a safe, harmless digestive medicine like Stuart's Digestive Tablets, composed of the natural digestive principles, peptones and diastase, which actually perform the work of digestion and give the animal stomach a chance to rest and to furnish the body and brain with the necessary nutrients. Cheap cathartic medicines, unmeasured under the name of dyspepsia cure are useless for relief or cure of indigestion, because they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its forms is simply a failure of the stomach to digest food, and the sensible way to solve the problem and cure the indigestion is to make daily use at meal time of a safe preparation which is endorsed by the medical profession, and known to contain active digestive principles, and all this can truly be said of Stuart's Dyspepsia Tablets.

All druggists throughout the United States, Canada and Great Britain sell them at the uniform price of fifty cents for full treatment.

A MAGAZINE'S ESTIMATE OF THEODORE ROOSEVELT.

(From The World's Work.)

If Mr. McKinley became the most popular Chief Magistrate that this generation has known, Mr. Roosevelt is, in his own right, the legitimate successor to this distinction. And he is the most interesting figure in our public life. He is almost the only American citizen of recent times who from the highest motives has from his youth given himself wholly to the public service. He has made it a career, having no other profession. At the age of forty-three he has already had an experience that is unique in our history, which is far fuller of unusual careers. A large volume of public achievement—positive always—stands to his credit. He is a gentleman of the true Democratic kind, with his broad human sympathy is at home with earnest men of all social types; he is an educated man, a lover and a writer of books, the only writer of non-official literature that has come to the Presidency since the days of the cultivated Fathers of the Republic; he is a manly sportsman, the only President, perhaps, who could fill the White House with trophies of the chase as well as of war; and above all, he is an unswerving believer in American institutions, American character and American leadership. The dominant note of his character is earnestness. All these qualities make a man very much out of the common.

The normal earnestness with which he has always taken his official duties—the earnestness, in fact, with which he regards the obligations of citizenship—has made him as conscientious a public servant as we ever had; and, as graver and graver have fallen to him in his rapid advancement, he has become a conservative in making plans as he is energetic in executing them.

A report from Supt. J. C. Gluck, reform school, Prantytown, W. Va., Oct. 18th, 1900: "After trying all other advertised cough medicines, we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reformatory School. I find it the most effective, and absolutely harmless."

COURT IN SESSION AT CLINTON

KILLED A CATAMOUNT.

Caliz, Oct. 4.—A catamount was killed near the home of Mr. Alfred Bridges, near Maple Grove, last Wednesday night. The animal came to Mr. Bridges' home during the night and a large dog of his ran it up a tree not far away. Thinking it was a coon, Mr. Bridges and his sons chopped the tree down, and the animal was killed by the dog, when it was discovered to be a catamount. Its body was two and a half feet long, and was of a brown color with black spots. Its feet were as large as those of a big dog, and claws were over an inch long. It had a three-inch tail and very long teeth—over an inch in length. The hide has been stuffed, and is proving a great curiosity to people throughout the neighborhood.

SAW MILL BURNED.

Marion, Ky., Oct. 4.—Thursday morning the saw mill owned by Mr. Carl Flannery, located on the farm of Mr. Peter Shoemaker, five miles north of Marion, was destroyed by fire. A portion of the saw mill and one large saw were burned, but George Russell, the engineer, by hard work saved the fine engine. The mill was entirely new, and had been in operation but one week. It was perhaps the largest sawmill in the county. The origin of the fire is unknown. There was no insurance, consequently Mr. Flannery's loss is a severe one. The mill will be rebuilt immediately.

BIG CONTRACT LET.

Caliz, Ky., Oct. 4.—Yesterday morning the saw mill owned by Mr. Carl Flannery, located on the farm of Mr. Peter Shoemaker, five miles north of Marion, was destroyed by fire. A portion of the saw mill and one large saw were burned, but George Russell, the engineer, by hard work saved the fine engine. The mill was entirely new, and had been in operation but one week. It was perhaps the largest sawmill in the county. The origin of the fire is unknown. There was no insurance, consequently Mr. Flannery's loss is a severe one. The mill will be rebuilt immediately.

BRANDON STOCK SOLD.

Caliz, Ky., Oct. 4.—The entire stock of dry goods of Brandon Bros. of this place, who made an assignment about three months ago, was sold Tuesday as a whole to Wm. Lynch of Dawson for \$1,500, by Trustee G. P. Thomas. The sale was immediately confirmed and Mr. Lynch given possession. He will close the stock out as quickly as possible at the old stand.

GRAVEN COUNTY POST.

Mayfield, Ky., Oct. 4.—The post-office at Cuba, this county, was robbed of \$50 in cash, a lot of stamps and of the articles in the office. The office is located in a store, and the thieves broke in at the back door, did their work and got away unnoticed.

LUCKY MAYFIELD MAN.

Mayfield, Ky., Oct. 4.—Sam Throgmorton, who lives five miles south of the city, has just been notified that he drew 100 acres of fine land in Oklahoma. He has been offered \$1,000, but will not take it. He will leave soon to accept it, according to law.

ASLEEP ON THE TRACK.

Bardwell, Ky., Oct. 4.—Frank L. Gale of Shreveport, La., was killed by an Illinois Central train at Tishomingo, Ont. He was asleep on the track.

COURT AT CLINTON.

Clinton, Ky., Oct. 4.—The following cases have been disposed of: Robert Brower was convicted and given six years in the penitentiary for the killing of Will Stevens. George Stubbs, colored, was given two years for malicious shooting. John Henderson, charged with robbery, was acquitted.

Ole Rogers, charged with detaining a woman, was on account of his youth, sent to the reform school at Lexington until he attained the age of twenty-one.

The Illinois Central railroad company was fined \$50 for creating a nuisance on its tracks some distance north of Clinton.

The colt of H. L. Oratchfield vs. the M. and O. railroad, resulted in a verdict of \$150 for plaintiff.

Hamp White, colored, was given one year in the penitentiary for robbery.

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishes and strengthens the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unimpeded circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Calabar, Eczema, Salt Rheum, Psoriasis, Tetor—in fact the majority of human ailments—are caused by poisons or humors that are recognized and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are consequences of the blood. It naturally grows thick and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skin are evidence some constitutional or blood trouble, which salves, lotions, powders or any external treatment cannot cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antiseptics and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old insubstantial blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and come from experienced and educated doctors. All correspondence is conducted in strictest confidence.

OUR NOMINEES.

A Few Words Personal About the Gentlemen on the Republican Ticket.

A better ticket of more progressive men could not have been made up in Paducah than that nominated Wednesday afternoon by the Republicans.

Mr. H. C. Allison, the nominee for mayor, resides in the handsome Burnett home on Broadway near Ninth, and is a tobaccoist of wealth and refinement, his ability and popularity being amply attested by his success in business. He is a general favorite with all, and every man in his party, as well as many out of it, has the greatest confidence in his integrity and ability. He will make a good mayor, and the Republicans may well feel proud of the man who leads their ticket.

Hon. Sam Houston, who was nominated for judge of the police court, is one of the foremost members of the Paducah bar, and has held public offices of trust that required great ability, and acquitted himself in a most creditable manner. He is a brother of the late Col. H. H. Houston, and is a gentleman of unquestioned ability. He resides at Fifth and Monroe.

Mr. Earl Hazen, the nominee for city marshal, is one of the most popular Republicans in Paducah. He is a foreman in the Illinois Central car shops, and ran a splendid race for the same office four years ago. He lives on South Eleventh street.

Mr. W. A. Gardner, nominee for city prosecuting attorney, is at present United States commissioner. He has been a life long resident of Paducah, and is a lawyer of ability who will make a popular candidate. His present home is at the Palmer House.

The nominees for councilmen in the first ward, Messrs. E. E. Bell and Wm. Kames, are well known citizens. Mr. Bell having been in the council four years ago. He is proprietor of one of the largest mills in Mechanicville, for the manufacture of spokes and rims, and made a creditable record in the council when there before. Mr. Kames is a well known contractor who is able to and will make the people a good councilman.

In the Second ward there are not

two better known men than Dr. C. E. Wadsworth, the dentist, and Mr. Rodney C. Davis, brother of Councilman D. R. Davis, and a member of the firm of Davis and Co.

In the Third ward Dr. Frank Boyd, one of Paducah's most prominent physicians, and best citizens, and Mr. O. B. Starks, a member of the big firm of E. Rehkopf and Co. will lead strength to the ticket. They are among Paducah's most public spirited men and as with the others, a vote cast for them is a vote for a good, progressive administration.

In the Fourth ward, Mr. August Biddle, the well known carpenter, and Mr. Henry Kambler, son of former Councilman Kambler and a young grocerman whose success in business has been most gratifying, will poll a big vote and lend strength to the ticket.

Mr. L. C. Perry and Mr. Chris Leibel, the nominees in the Fifth ward, are both grocers of Jackson street, life long Republicans and men to whom every body has the greatest confidence.

Mr. C. H. Chamblin, the brick manufacturer and contractor, and Mr. H. H. Foreman, foreman at Kilgore's big heading factory, are the nominees in the Sixth ward and will draw to the ticket a big support in that section of the city, where they are very popular, as well as wherever else they are known.

For school trustee there are Mr. One Hank, the well known hardware merchant, Mr. George C. Hughes, the real estate man of Broadway, Dr. W. H. Pitzer, the dentist, Capt. J. K. Smith, one of Paducah's oldest citizens and most substantial business men, Mr. Charles Speck, the grocery man, and Mr. U. S. Walston, who has been a member of the board before. These gentlemen will insure the best schools possible to have and afford an administration of which the city will justly feel proud.

The entire Republican ticket is one that will bear comparison with the Democratic ticket. It is one to work for and be proud of.

\$10 ON WHISKEY.

Frankfort Ky., Oct. 4.—The tax rate on whiskey has been fixed at \$10 a barrel by the state board of valuation. Two members voted for \$10 and one for \$8. Last year it was \$8. The law gives the distillers thirty days to prepare a protest.

When suffering from racking cough, take a dose of Foley's Honey and Tar. The soreness will be relieved and a warm, grateful feeling and a healing of the parts affected will be experienced.

WHAT SHALL WE EAT TO KEEP HEALTHY AND STRONG?

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

ly the best, in spite of the claims made by vegetarians and food cranks generally.

As compared with grains and vegetables, meat furnishes the most nutrition in a highly concentrated form, and is digested and assimilated more quickly than vegetables or grain.

Dr. Julius Remondson on this subject says: Nervous persons, people run down in health and of low vitality should eat plenty of meat. If the digestion is too feeble at first it may be easily strengthened by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three or four hours, while the meat cranks alone contained in Stuart's Tablets cause the perfect digestion of starchy foods, like potatoes, bread, etc., and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and diastase so necessary to perfect digestion, and any form of indigestion and stomach trouble except cancer of the stomach will be overcome by their daily use.

That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its complete digestion by the systematic use of a safe, harmless digestive medicine like Stuart's Digestive Tablets, composed of the natural digestive principles, pepsin and diastase, which actually perform the work of digestion and give the abused stomach a chance to rest and to furnish the body and brain with the necessary nutriment. Cheap cathartic medicines masquerading under the name of dyspepsia cures are useless for relief or cure of indigestion, because they have absolutely no effect upon the actual digestion of food.

Dyspepsia is all its forms is simply a failure of the stomach to digest food, and the sensible way to solve the trouble and cure the indigestion is to make daily use at meal time of a safe preparation which is endorsed by the medical profession, and known to contain active digestive principles, and all this can be had of Stuart's Dyspepsia Tablets.

All druggists throughout the United States, Canada and Great Britain sell them at the uniform price of fifty cents for full treatment.

A MAGAZINE'S ESTIMATE OF THEODORE ROOSEVELT.

(From The World's Work.)
If Mr. McKinley became the most popular Chief Magistrate that this generation has known, Mr. Roosevelt is, in his own right, the legitimate successor to this distinction. And he is the most interesting figure in our public life. He is almost the only American citizen of recent times who from the highest motives has from his youth given himself wholly to the public service. He has made it a career, having no other profession. At the age of forty-three he has already had an experience that is unique in our history, which is full of unusual careers. A large volume of positive achievement—positive always—stands to his credit. He is a gentleman of the true Democratic kind, who by his broad human sympathy is at home with earnest men of all social types; he is an educated man, a lover and a writer of books, the only writer of non-official literature that has come to the Presidency since the days of the cultivated Fathers of the Republic; he is a manly sportsman, the only President, perhaps, who could fill the White House with trophies of the chase as well as of war; and above all, he is an unswerving believer in American institutions, American character and American leadership. The dominant note of his character is earnestness. All these qualities make a man very much out of the common.

The normal earnestness with which he has always taken his official duties—the earnestness, in fact, with which he regards the obligations of citizenship—has made him as conscientious as a public servant as was ever had; and, as a result, his grave and earnest nature has become a conservative in making plans as he is energetic in executing them.

A report from Supt. J. C. Olney, reform school, Prattville, W. Va., Oct. 18th, 1900: "After trying all other advertised cough medicines, we have decided to use Foley's Money and Tar exclusively in the West Virginia Reform School. I find it most effective, and absolutely harmless." J. C. Olney.

Man Killed At Bardwell By a Train News From
Calix.

COURT IN SESSION AT CLINTON

KILLED A CATAMOUNT.

Calix, Oct. 4.—A catamount was killed near the home of Mr. Alfred Bridges, near Maple Grove, last Wednesday night. The animal came to Mr. Bridges' hen house during the night and a large dog of his ran it up a tree not far away. Thinking it was a 'coon, Mr. Bridges and his sons chopped the tree down, and the animal was killed by the dog, when it was discovered to be a catamount. Its body was two and a half feet long, and was of a brown color with black spots. Its feet were as large as those of a big dog, and claws were over an inch long. It had a three-inch tail and very long teeth—over an inch in length. The hide has been stuffed, and is proving a great curiosity to people throughout the neighborhood.

SAW MILL BURNED.

Marion, Ky., Oct. 4.—Thursday morning the saw mill owned by Mr. Carl Flannery, located on the farm of Mr. Peter Shoemaker, five miles north of Marion, was destroyed by fire. A portion of the saw log and one large log were burned, but George Russell, the engineer, by hard work saved the saw engine. The mill was entirely new, and had been in operation but one week. It was perhaps the largest sawmill in the county. The origin of the fire is unknown. There was no insurance, consequently Mr. Flannery's loss is a severe one. The mill will be rebuilt immediately.

BIG CONTRACT LET.

Calix, Ky., Oct. 4.—Yesterday Burnham has been given the contract by the St. Louis Iron company to put up thirty miles of fence on the Hillman property, lying in Trig and Lyon counties, the work to be completed in thirty days. It is a heavy job, and will require a number of men to complete it in the time specified, but Burnham will do it. This company is doing everything on an extensive scale. Their object in this is to establish a large cattle ranch.

BRANDON STOCK SOLD.

Calix, Ky., Oct. 4.—The entire stock of dry goods of Brandon Bros. of this place, who made an assignment about three months ago, was sold Tuesday as a whole to Wm. Lynch of Dawson for \$1,500, by Trustee G. P. Thomas. The sale was immediately confirmed and Mr. Lynch given possession. He will close the stock out as speedily as possible at the old stand.

GRAVES COUNTY POST-OFFICE ROBBED.

Mayfield, Ky., Oct. 4.—The post-office at Cuba, this county, was robbed of \$50 in cash, a lot of stamps and of the articles in the office. The office is located in a store, and the thieves broke in at the back door, did their work and got away unnoticed.

PAINFUL ACCIDENT.

Mayfield, Ky., Oct. 4.—W. H. Wainman, of New York, who is here superintending the machinery of the vitrified brick plant south of the city, had the thumb on his left hand torn off by the machinery.

LUCKY MAYFIELD MAN.

Mayfield, Ky., Oct. 4.—Sam Thompson, who lives five miles south of the city, has just been notified that he drew 160 acres of fine land in Oklahoma. He has been offered \$1,000, but will not take it. He will have soon to occupy it, according to law.

ASLEEP ON THE TRACK.

Hartwell, Ky., Oct. 4.—Frank L. Gale of Shreveport, La., was killed by an Illinois Central train at Robbins' Cut. He was asleep on the track.

COURT AT CLINTON.

Clinton, Ky., Oct. 4.—The following cases have been disposed of: Robert Brower was convicted and given six years in the penitentiary for the killing of Will Stevens. George Stubbs, colored, was given two years for malicious shooting. John Henderson, charged with robbery, was acquitted.

ONE ROGERS, CHARGED WITH DETAINING A WOMAN, WAS, ON ACCOUNT OF HIS YOUTH, SENT TO THE REFORM SCHOOL AT LEXINGTON UNTIL HE ATTAINED THE AGE OF TWENTY-ONE.

The Illinois Central railroad company was fined \$90 for creating a nuisance on its tracks some distance north of Clinton.

The suit of H. L. Crutcher vs. the M. and O. railroad, resulted in a verdict of \$150 for plaintiff.

Hamp White, colored, was given one year in the penitentiary for robbery.

After exposure, or when you feel a cold coming on, take a dose of Foley's Money and Tar. It never fails to stop a cold if taken in time.

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unimpeded circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetor—in fact the majority of human ailments—are caused by poisonous humors that are engendered and fostered in a sluggish and impure blood. Old sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexion and rough, oily skin are evidence of some constitutional or blood trouble, which salves, lotions, powders or any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antiseptics and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old, unwholesome blood, and when the arteries and veins are out of health, and the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence.

Polluted Blood Breeds Disease
more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

OUR NOMINEES.

A Few Words Personal About the Gentlemen on the Republican Ticket.

A better ticket of more progressive men could not have been made up in Paducah than that nominated Wednesday afternoon by the Republicans.

Mr. H. C. Allison, the nominee for mayor, resides in the handsome Burnett home on Broadway near Ninth, and is a tobaccoist of wealth and refinement, his ability and popularity being amply attested by his success in business. He is a general favorite with all, and every man in his party, as well as many out of it, has the greatest confidence in his integrity and ability. His will make a good mayor, and the Republicans may well feel proud of the man who leads their ticket.

Hon. Sam Houston, who was nominated for judge of the police court, is one of the foremost members of the Paducah bar, and has held public office of trust that required great ability, and acquitted himself in a most creditable manner. He is a brother of the late Col. H. H. Houston, and is a gentleman of unquestioned ability. He resides at Fifth and Monroe.

Mr. Earl Hansen, the nominee for city marshal, is one of the most popular Republicans in Paducah. He is a foreman in the Illinois Central car shops, and ran a splendid race for the same office four years ago. He lives on South Eleventh street.

Mr. W. A. Gardner, nominee for city prosecuting attorney, is at present United States commissioner. He has been a life long resident of Paducah, and is a lawyer of ability who will make a popular candidate. His present home is at the Palmer House.

The nominees for councilmen in the first ward, Messrs. E. E. Bell and Wm. Karnes, are well known citizens. Mr. Bell having been in the council four years ago. He is proprietor of one of the largest mills in Mechanicburg, for the manufacture of spokes and rims, and made a creditable record in the council when there before. Mr. Karnes is a well known contractor who is able to and will make the people a good councilman. In the second ward there are not

NOTICE.

NUTS ARE NOT RIFE, BUT WILL BE AFTER A HEAVY FROST.

It is reported that there is a good crop of nuts, and we have decided to take ladies and children, where there are as many as ten or more in the lot, for 10c round trip, giving them the privilege of gathering nuts on our land when you get tickets on the Bell Owen, otherwise you will subject yourselves to arrest and punishment for trespassing, according to law. Our land is posted and you will have no right upon it. We have hired watchmen and the Illinois officers will be on hand both day and night and Sundays. If, after this notice, any of you are arrested, do not come to us to go on your bond. No children allowed without parents or guardians. Respectfully, OWEN BROS.

Chas. R. Westman, Evansville, Ill., writes: "My boy, 2 1/2 years old, had a severe cold, which refused to yield to any treatment until we tried Foley's Money and Tar. He was completely cured before using one bottle." Take none but Foley's.

J. C. Gilbert.

For two hours the sign was irradiated by the lights above the entrance. Then a scandalous patrolman hastened up the steps and with his own hands tore it down. Perhaps he arrested it for loss of majesty.

DUANE.

Mrs. T. Bridleman of Marshallville, Mich., was troubled with salt rheum for thirteen years, and had tried a number of doctors without relief. After two applications of Hanner Salve her hands became better, and a short time she was entirely cured. Beware of substitutes.

SMALL BLAZE.

CURTAIN CATCHER FIRE AT THE M'PIERSON DRUG STORE.

The draw curtain which keeps the sun out of the west window of the McPherson drug store and also protects the cigar case, caught fire this morning and did some little damage to the cigar case and to the wall. The curtain had been drawn aside and some one threw a lighted match or a cigar stump behind it. The cloth caught fire and the blaze shot up to the ceiling. The wall was badly scorched and the cigar case burned on one end.

The clerks extinguished the fire and the departments were not called out.
